

AMENDMENTS TO THE CLAIMS:

The present listing of the claims replaces all past listings of the claims:

In the Claims:

Claim 1. (cancelled)

Claim 2. (currently amended) A ~~container~~ method according to claim-~~4~~ 14 wherein said closure part (9) is a water-soluble film (9).

Claim 3. (currently amended) A ~~container~~ method according to claim-~~4~~ 14 wherein said plug (7) comprises a water-soluble composition.

Claim 4. (currently amended) A ~~container~~ method according to claim-~~4~~ 14 wherein said plug (7) is spherical.

Claim 5. (currently amended) A ~~container~~ method according to claim-~~4~~ 14 wherein said first composition (6) and said second composition (8) are each a fabric care, surface care or dishwashing composition.

Claim 6. (currently amended) A ~~container~~ method according to claim 5 wherein said first composition (6) and said second composition (8) are each a dishwashing, water-softening, laundry, detergent or rinse aid composition.

Claim 7. (currently amended) A ~~container~~ method according to claim-~~4~~ 14 wherein said first composition (6) and said second composition (8) are each a disinfectant, antibacterial or antiseptic composition.

Claim 8. (currently amended) A ~~container~~ method according to claim-~~4~~ 14 wherein said first composition and said second composition are each an agricultural composition.

Claim 9. (cancelled)

Claim 10. (currently amended) A ~~container~~ method according to claim ~~1~~ 14 wherein said container is made from a poly(vinyl alcohol) (PVOH).

Claim 11. (currently amended) A ~~container~~ method according to claim ~~1~~ 14 wherein said first compartment (2) is defined by a lower surface, said barrier (4) and walls extending therebetween, said lower surface and said barrier (4) being substantially parallel.

Claim 12. (currently amended) A ~~container~~ method according to claim ~~1~~ 14 wherein said second compartment (3) is defined by an opening, said barrier (4) and walls extending therebetween.

Claim 13. (currently amended) A ~~container~~ method according to claim ~~1~~ 14 which is cuboid.

Claim 14. (currently amended) A process for preparing a filled water-soluble injection molded container (1) according to claim 1, said container comprising a first composition (6) held in a first compartment (2) and a second composition (8) held in a second compartment(3), said first compartment and said second compartment being separated by a water-soluble barrier (4) having an opening (5) plugged by a plug (7) arranged such that when said when said container is which process comprises the steps of: providing an unfilled water-soluble injection moulded container (1) filling said first compartment (2) with said first composition (6) through said opening (5) in said barrier (4), plugging said opening (5) with a plug (7), filling said second compartment (3) with said second composition (8) and sealing said second compartment (3) with a closure part (9).

Claim 15. (currently amended) A ~~container~~ method according to claim 2 wherein said plug (7) comprises a water-soluble composition.

Claim 16. (cancelled)

Claim 17. (cancelled)

Claim 18. (cancelled)

Claim 19. (cancelled)

Claim 20. (cancelled)
